

Our new and improved Critical Illness Cover

Coma

We've removed the requirement for the use of life support systems for a period of 24 hours.

Heart Valve Replacement or Repair

We've removed the need for surgery to divide the breastbone.

Paralysis of Limbs

We've decreased the required number of limbs that have to be affected from two to one.

Third Degree Burns

We've combined our two current definitions into one to make it easier for your customer to understand. It now includes both burns to 20% of the body's or face's surface area.

Multiple System Atrophy

We've added Multiple System Atrophy to complement our existing Parkinson's, Alzheimer's and Pre-senile dementia definitions, giving us one of the most comprehensive covers for degenerative neurological disorders in the market.

Best Doctors[®]

Fortis has added services from Best Doctors to all new Critical Illness covers. Best Doctors provides access to an expert second opinion to people who have been diagnosed with a serious medical condition. They find the most appropriate doctor from a worldwide database of 50,000 leading specialists and deliver a report to your client addressing any questions they may have about their condition.

40 conditions covered 11 ABI+ definitions

All protection is not the same
